

3450KG GVM UPGRADE - SUITS HILUX 8GEN

If a safe, legal, and practical increase to vehicle carrying capacity is required, a Gross Vehicle Mass (GVM) upgrade is the solution. Benefit not only from increased load carrying capacity, but significantly improved handling characteristics when fully laden. Whether it be heavy cargo, towing, or a combination of both – Multidrive Technology have you covered.

The 3450kg GVM upgrade kit to suit the 2015+ Toyota Hilux 8Gen has been carefully developed with vehicle-specific requirements in mind. Full testing has been undertaken via third-party engineering signatories prior to product approval and release to market. Each GVM upgraded vehicle is fit-for-purpose and backed by quality componentry.

Multidrive Technology offer both pre-registration fitment under Second Stage Manufacture (SSM) compliance approval, or post-registration fitment via Vehicle Assessment Signatory Scheme (VASS) Engineering Certificate. Assurance is guaranteed that such a significant modification is properly applied against every vehicle.

Our GVM upgrade provides the necessary base in which to build your vehicle requirements. We may assist also to incorporate other required accessories.
