

NORWELD TRAY/CANOPY - SUITS MOST CAB CHASSIS

A clear stand-out in the market, Norweld combines unrivalled strength, practicality, and good looks which fully compliment our range of primary cab-chassis modifications. Multidrive Technology are proud to offer the range of Norweld trays, canopies, and accessories with any of our vehicle builds.

With basic models through to the flagship 'Deluxe' tray and canopy packages, all bases are covered. A 'Deluxe' package is available to specifically fit Multidrive Technology's LC79 dual cab 300mm chassis extended vehicles.

There is no compromise on fit, form, or total function. A Norweld package atop our base vehicle modifications has you ready to work, play, or explore. Expertly designed to achieve the optimum combination of strength coupled with the lightweight benefits of aluminium. These works of art really must be seen to be believed!

Fitment of a tray and/or canopy package is fully complimented by GVM upgrades, chassis extensions (LC79 DC only) and track correction (LC79 DC & SC). We may assist also with incorporating any other required accessories.

To find out more, please visit our website or check out Norweld – norweld.com.au.
