

## SIX WHEEL CONVERSION (6x4) - SUITS LC79DC

Convert the Toyota LC79 dual cab 4x4 to a Multidrive Technology 6x4 and benefit from massive load carrying capacity. Enjoy improved and predictable handling characteristics whilst remaining safe and legal. Whatever the conditions – heavy loads, towing, or rough off-road tracks – Multidrive Technology drives your payload further!

The lazy axle conversion to suit the 11/2012+ Toyota LC79 dual cab provides payload capacity up to approx. three tonnes and usable towing capacity up to 3500kg. The result is one serious vehicle.

Developed precisely via 3D CAD modelling, FEA verification, and driven by 30+ years of refinement, this conversion is fully approved via independent third-party consulting engineers. Our dedicated production facilities ensure quality conformance on every conversion and a lengthy warranty period to guarantee confidence.

Multidrive Technology offer both pre-registration fitment under Second Stage Manufacture (SSM) compliance approval, or post-registration fitment via Vehicle Assessment Signatory Scheme (VASS) Engineering Certificate. Assurance is guaranteed that such a significant modification is properly applied against every vehicle.

Our six-wheel conversion range is a premium offering that provides an exceptionally heavy-duty base upon which to fulfil your total vehicle build requirements. We may assist also to incorporate other required accessories.
