

FIRE SPECIFICATION CAB CHASSIS - SUITS LC79SC

Multidrive Technology's fire specification cab-chassis fit-out is a custom packaged solution developed wholly for utilisation on Toyota LC79 single cab fire vehicles. There is no compromise on fit, form, or total function. Whatever the appliance – ultra light tanker, quick attack, or general service fire vehicle – Multidrive Technology have all bases covered!

Maximise service body space and payload capacity! Removal of the OEM rear-mounted 130L fuel tank and application of a nearside mid-mounted 100L steel fuel tank which retains optimal OEM fuel gauge accuracy and allows approx. 30kg additional payload. A rear under-chassis mounted spare wheel replaces the OEM fuel tank to maximise space for service body requirements. A 2.5" re-routed stainless-steel exhaust with muffler-delete ensures performance and compliance requirements are maintained. GVM upgrade and rear diff track correction options are included. Multiple additional options are also available for fitment – see the components list.

Multidrive Technology offer both pre-registration fitment under Second Stage Manufacture (SSM) compliance approval, or post-registration fitment via Vehicle Assessment Signatory Scheme (VASS) Engineering Certificate. Assurance is guaranteed that such significant modifications are expertly applied against every vehicle.

Our fire specification cab-chassis package provides an all-inclusive base vehicle setup. Following the addition of a third-party service body and communications of choice, each fleet vehicle is ready for the field.

MODEL APPLICABILITY

Landcruiser 79 (Single Cab) from 10/2016+

WEIGHT RATING

GVM	3780kg / 3950kg / 4150kg max.*
BTC	3500kg (OEM)
GCM	6900kg (OEM)
RAC*	2300kg* / 2420kg* / 2500kg*
FAC	1480 - 1730kg*

*4150kg refers to 11/2022+ model years only

#MDT re-rated OEM housing

%MDT HD track corrected housing

RAISED HEIGHT

Front	25mm STD / 35mm HD
Rear	50mm

Approx. unladen heights only

TYRE/WHEEL SIZE

285/75R16LT / 16X7JJ / 0*	(OEM)
265/70R16LT / 16X7JJ / 0	(OEM)
225/95R16C / 16X6J / +20	(OEM)
7.50R16-8PRLT / 16X5.50F / +20**	(OEM)

*Refer to 11/2022+ model only
**Refer to 10/2016-10/2022 models only

FUEL CAPACITY

100L (tracked optimally via OEM dash fuel gauge)

COMPONENTS

- GVM upgrade (refer options)
- Rear diff track correction (refer options)
- Mid-mount 100L steel fuel tank (retains OEM gauge)
- Fire protection lagging to rear soft fuel hoses
- Re-routed 2.5" stainless-steel muffler-delete exhaust
- Rear under-chassis mounted spare wheel
- Engine hour meter
- Protector guards
- Front guard rubber flare extensions
- Dual battery (refer options)
- Load rated wheels / tyres (refer options)

WARRANTY

Fleet 1 year / 50,000km

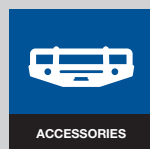

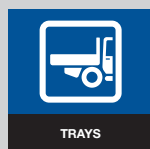

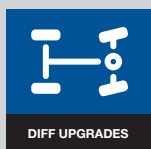

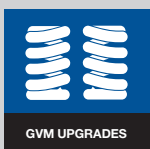

APPROVAL

SSM approval 50404 (NB1 Category)
SSM Approval VTA-061248 (NB1 Category)
