

SBI212 DUAL BATTERY – SUITS HILUX

Multidrive Technology's SBI212 dual battery kit for the Toyota Hilux provides a reliable means to power vehicle accessories in remote locations. Whether you're running radios, lighting, or keeping the fridge cool, Multidrive Technology will keep you charged up!

The SBI212 is Multidrive Technology's simplest and most robust dual battery configuration option, designed for fleet use. The system protects the starter battery from excessive discharge, while allowing the auxiliary battery to power accessories.

Multidrive Technology offer on-vehicle fitment via our dedicated workshop facilities. Assurance is guaranteed that this dual battery kit is applied against every vehicle. Be confident during remote adventures that power will always be available as required.

Our Toyota Hilux dual battery system is fully complimented by our range of GVM upgrades and 6-wheel conversions. We may assist also with fitment of certain trays or incorporate other required accessories.
